## PROFILE

I'm a passionate web developer dedicated to creating web applications that address challenges and enhance organizational productivity. With over one year of experience in managing client needs through design and recommendations, I specialize in building mobile-responsive websites that adhere to high standards of web design, user experience, best practices, and speed optimization.

## EXPERIENCE

**HNG TECH INTERNSHIP**                                                                **Remote**
**Frontend developer**                                                          **July–August 2024**

- ❖ Collaborated with fellow front-end developers to build the company's website
- ❖ Actively contributed to the development of AIForHomework, an AI-powered web app designed to assist students with their homework
- ❖ Designed visually appealing user interfaces for the AIForHomework app, aligning with established design specifications
- ❖ Developed an e-commerce website, Timbu Shop, utilizing the Timbu API during my HNG11 internship
- ❖ Successfully completed all tasks from stages 1 to 10 of the HNG11 internship
- ❖ Wrote well-structured, testable code and created reusable components that improved overall development efficiently

**FREELANCE SOFTWARE DEVELOPER**                                        **April 2024-Present**
Learning new technologies while building and maintaining several software
projects for private clients and public institutions
